

Cake & Sugar Art

Here is a quick guide on how to use the 'Make a Bow Set'

1. Cut out the 'tails' and 'loops' from rolled out Mexican / flower paste.

2. Turn the 'loop' piece over so that the markings are face down. Moisten the centre and lift the outer points in towards the centre.

3. Moisten the very top tip of the 'tail' piece and fold over.

4.
Turn the 'loop' piece over (this will now have the markings showing) moisten the centre of the 'tail' piece and place the 'loop' into position.

5.
Moisten the centre of the 'loop' and fold the top part of the 'tails' section down to complete the bow!

Insert a small piece of tissue paper or kitchen paper into the loops of the bow to support open until dry.

Tip: When dry rub a little vegetable fat over the bow and sprinkle with edible glitter.
